BIG CROWD AT CERULEAN

Hopkinsville People Largely
In Evidence Seeking
Fresh Air.

OVER 40 WERE THERE.

Mirth, Melody, Morpheus,
Splendid Table and Health-
Giving Water.

A small army is down at the Cerulean Springs Hotel and Capt. Pool is in the midst of a busy season. There are several families from the south, three being there from Mississippi, and owing to the yellow fever scare, many more are expected. Capt. Pool, the proprietor of the Hotel, says that they will be welcomed as he is confident that the yellow-jack mosquito cannot live there. Mr. W. T. Tandy's family has been there for a week or ten days, but returned to the city yesterday. Mrs. L. L. Leavell and her children are there for a few days; Mr. W. S. Moore and two of his daughters will be there for a couple of weeks; Mr. Charles Richardson, assistant cashier of the City National Bank, Paducah, will remain until Saturday. Mr. Richardson ran up to Hopkinsville last week to see Mr. John B. Trice and several of his schoolmates of 30 years ago. Miss Louise Jones and Miss Agnes Plack will return with the family of Mr. W. T. Tandy. The hotel is pretty well crowded, but prospective guests need not stay away on this account, as the host has the happy faculty of caring for all who apply.

Sunday was the anniversary of Capt. Pool's birthday, but he refrained from the use of fire-works, which he fired off in great profusion last year. The Capt. does not hesitate to tell his age. He has seen 65 summers and is looking hale and hearty and told a young lady that he expected to live for 20 years yet, if he was not killed by lightning or a railroad accident. He is doing a highly satisfactory business, and when asked when the season would close said there would be no end to the season, as he intends to keep open house the year round.

Everybody enjoys the splendid menu of the hotel, the pure, fresh air and the health-giving water. The young belles and beaux are having the time of their lives, the devotees of the dance are numerous and during the week the pavilion is crowded. Everybody is happy and all are sorry when the time for their departure rolls round.

Following is a complete list of the people who went down Sunday to get rid of the dust and heat of the city and enjoy a day out of town as well as to get a good square meal or two:

R. M. Woodriddle, E. G. Callis, Will Callis, W. H. Southall; W. G. Harris and Luther Haydon and wives, Vince M. Williamson, L. Yonts, Misses Alline, Sadie and E. Blumenstiel, Charles B. Jackson, J. W. Allen, Albert Clark, Caldwell Feland, Gabe Long, Will Hancock, L. A. Tuggle, Miss Daisy Williams, W. S. Wade, M. E. Bacon, James M. Forbes, T. J. Hunter, Lawson Plack, Will Myers, George E. Dillman, George Roach, W. A. Barnett, Jr., Max Meyers, Frank Slaughter, Jesse L. Burrus, H. Franklin, James Watson, Mrs. Taylor, John T. Edmunds, H. M. Dalton, James L. Long, L. C. Ragadele, Thomas W. Morris, Lucian H. Davis, Frank Pepper and daughter, Miss Alice.

There were also many others registered Sunday from Cadiz, Princeton, Gracey and other points. A band of five pieces discoursed sweet music during the day and the Sabbath was passed in an orderly and joyful manner. During the evening a number of solos were sung by lady and gentlemen guests, and though the returning train was an hour behind time, the hours were passed so pleasantly they did not seem long.

A FULL DOZEN DEATHS A DAY

Is the Record Now Being
Made in New
Orleans.

NEARLY 1,000 CASES.

Fifty Fresh Infections Re-
ported with 19 More
Turned in Afterwards.

New Orleans, Aug. 13.—Following is the official yellow fever record up to 6 p. m.:

New cases, 50.
Total cases, 963.
Deaths today, 12.
Total deaths, 154.
New sub-foci, 14.
Total sub-foci, 202.

Cases under treatment, 343.

The heavy increase in the number of cases which began four or five days ago is beginning to manifest itself in the death list, which can be expected to grow gradually for the next few days. The number of new cases today seems small in comparison with yesterday's record, but it is really nineteen short, as that number of cases were turned in by an inspector just after the hour for closing the report.

These figures will figure in tomorrow's report.

Saturday's figures were 105 new cases and 9 deaths.

MRS. BARNES DEAD.

Passed Away Saturday Af-
ternoon, Aged 61.

Mrs. Margaret Croft Barnes, wife of J. J. Barnes, ex-sheriff of Christian county, died at her home on North Main street Saturday afternoon at 6 o'clock, at the age of 61 years. Consumption was the cause of her death. She had been confined to her room for about eight months. Deceased was a native of this county, being born at Crofton. Her maiden name was Croft, being a sister of Mr. David Croft. She leaves her husband and two children—Lucien, of this city, and Charles, of Birmingham, Ala. She was a member of the Christian church for 30 years. In the absence of Rev. H. D. Smith funeral services were conducted at her home by Rev. H. C. Beckett, of the Universalist church, Sunday. She was buried in Hopewell cemetery.

FINE PROSPECTS

For Flourishing School at
Bethel Female College.

Prof. Edmund Harrison, of Bethel Female College, says he has never had such fine prospects for a large school as he has for the session beginning next month. His capacity is 50 boarding pupils and indications point to a crowded building. Last year he had about 36 boarding pupils, but this time is expecting an increase of 40 to 50 per cent. A large number of his new pupils will be from the Southern States. The faculty this year has been increased and strengthened and the building has been newly painted and otherwise improved.

IN TWO WARDS

Primary Elections Will Be
Held To-Day.

Democrats in two wards of the city will make nominations to-day for councilman in legal primary elections held from 8 a. m. to 4 p. m. In the First Ward, Messrs. H. W. Tibbe and J. M. Clark are candidates and both are confident of success. In the Sixth Ward Dr. J. B. Jackson is opposed for re-nomination by former councilman E. M. Flack, who was called upon by about 100 voters to make the race.

American Coin for Europe.

Since it seems to be determined that the expenditure of Americans who go to Europe for the summer averages \$1,000 for each person, it follows that \$300,000,000 of the so-called balance of trade of \$400,000,000 this year will be covered by these foreign voyagers. The rush to Europe this year is breaking all records. The number of first and second class passengers who have already been carried across is \$0.00. Thirty thousand more will go in July, and the total for the season is estimated at \$50,000.

Lent His Best Letter.

In the early days of New Zealand an apologetic paragraph appeared in an Auckland paper in which the editor explained the absence of lower case "k's" in his issue. He had foolishly lent these letters from his font to the government printer, who, having failed to return them, the indulgent reader would please notice that wherever a blank space appeared in a word the letter "k" was to be understood. There are only 14 letters in the Maori alphabet, and the letter "k" is used in that language as frequently as the letter "c" in English.

EVER WATCHFUL.

A Little Care Will Save Many Hopkinsville Readers Future Trouble.

Watch the kidney secretions. See that they have the amber hue of health.

The discharge not excessive or infrequent; Contain no "brick-dust like sediment."

Doan's Kidney Pills will do this for you.

They watch the kidneys and cure them when they're sick.

Hopkinsville testimony proves it. J. W. Tunks, of 312 W. Seventh St., who is employed at the M. C. Forries planing mill, says: "The condition of my health was such as to cause me a great deal of worry about my future. I had almost constant aching across the small of my back and the kidney secretions were highly colored, excessive and irregular, in fact, the disorder was so pronounced that it had been said it bordered on diabetes. I also suffered at times with indigestion which caused me a great deal of distress. At one time I was scarcely able to do any work at all for nearly a year. I doctored and tried various remedies but nothing did me any permanent good until I used Doan's Kidney Pills which I procured at L. A. Johnson's drug store. I had them only a few days when I noticed a change for the better and by the time I had finished the box I found they had brought about so decided an improvement in my condition as to convince me of their real worth, and I am more than thankful for the relief that I have received."

PUT UP A BRAVE DEFENSE.

Six Men Surrounded by Two Hundred Indians, But They Hold Out.

A detachment of six men was carrying dispatches from a command near Red River to Camp Supply. Of the six two were scouts, Amos Chapman and William Dixon. The others were cavalrymen, relays Outing. Far from any refuge they were surrounded by nearly 200 Indians. They sought shelter in a buffalo wallow and prepared to hold their ground. The attack came at six o'clock in the morning and the long, long day stretched before them. In the first rush four of the men were wounded, Private Smith mortally. The other hurts were severe.

They were hemmed in on all sides in an open plain, and were outnumbered almost twenty to one. One of the scouts, while a severe fire was being poured in at them, succeeded in throwing up a scanty trench with his bowie knife and his bare hands. His comrades held the Kiowas and Comanches off until this little help was ready as a refuge and they moved into the trench, the wounded walking with brave and painful effort.

Although Private Smith was wounded unto death, he sat up right in the trench to conceal his crippled condition from the foe. From early morning until night this handful of five men was under an almost constant fire, often at such short range that they could bring their pistols into play. Thus they fought for their own lives and defended their dying comrade, without food or drink only a little muddy rain water mixed with their own blood. They killed more than a dozen Indians and wounded about a score.

Relief came that night, but it was 36 hours after the first attack before medical aid and food could be given them at the nearest post. Private Smith died before camp was reached. Every man was wounded, Scout Chapman severely, but not dangerously. This band of four soldiers and two scouts were of those who had been marching for weeks amid the most dreadful privations. They were worn to skin and bone, but their souls were as "big as all outdoors" and they finished at no odds under heaven. And by such men as these was this nation made.

THE JAPANESE LANGUAGE.

Change Proposed Under Supervision of Specially Appointed Government Commission.

The progressive spirit of the Japanese is about to show itself in a new direction, though success in the development of the idea may not be immediately accomplished, says the Spokane Spokesman. A government commission has been appointed to make a report on the advisability of adopting Roman characters in the written language of Japan, and a prominent member of the commission has arrived in the United States to pursue inquiries along the lines of the proposed change.

The Japanese language has many features that are puzzling to all except special students, and now that the kingdom is taking its place among the foremost nations of the world in the various arts of war and peace an improvement in this matter is felt to be most essential in connection with the advances being made in other directions. Chinese characters and ideographs have been used ever since the introduction of writing in Japan, and these have been frequently modified and adapted to local conditions so that even the Chinese do not recognize them. Increasing intimacy with the outside world calls for a change, and it is interesting to note that "the little brown people" are as eager to advance in civilization as to win in war.

Most Efficient Workers.

President Faunce of Brown university, uttered these striking words in his most recent baccalaureate sermon: "Among the certain temptations to which our eager occidental life is peculiarly liable is the constant tendency of the work to master the workmen. The real failures in our industrial life are the men whose revenues are advancing while their souls are shriveling. The most efficient workers of the modern world are those who will not be hurried."

Rheumatism.

When pains or irritation exist on any part of the body, the application of Ballard's Snow Liniment gives prompt relief. E. W. Sullivan, Prop. Sullivan House, El Reno, O. T., writes, June 6, 1902: "I take pleasure in recommending Ballard's Snow Liniment to all who are afflicted with rheumatism. It is the only remedy I have found that gives immediate relief." 25c, 50c and \$1.00. Sold by Cook & Higgins.

CURRENT AND COMPASS.

Treachery of Both Responsible for the Stranding of Many Ships.

Even a steam dredge has pride and is therefore unwilling to admit that it deposited itself voluntarily on the shores of Long Island. At any rate, states the New York Sun, the captain of the government dredge which went aground a day or two ago on Jones' bar has declared that he was carried thither by a strong current setting toward the beach and by a compass which had one or two points of undetermined error. These two, the current and the treacherous compass, are old familiar friends of stranded ships.

For many years that deadly current which drives vessels toward the south beach of Long Island has been famous in nautical song and story. Curiously enough, there are skippers and skippers who forget all about it until they hear the keels grating in the sand, and then they remember that every one knows that perfidious stream which sets men toward Shinnecock or Fire Island.

And there is the fallible compass, too. Every navigator knows that the compass is subject to the seductions of neighboring steel and iron and that only in a few places on the earth does it point to a geographical north anyhow. But somehow there are still captains who do not recall these facts till they have gone aground. Then those captains are swift to confess that their compasses were not telling them the truth, which is the same thing as admitting that they did not know where they were steering. But current or no current, compass or no compass, there is a friend who never deceives the mariner, and who can be trusted implicitly in the approach to Sandy Hook from all quarters of the sea. That friend is the lead line. When a captain goes ashore on the Long Island or New Jersey beach, it is usually because he has forgotten to make systematic use of the lead, and strangely enough he never accuses that instrument of inefficiency when he is publishing his excuses.

SYMPATHY OF ANIMALS.

Noted Naturalist Thinks That Such a Thing Is Beyond the Lower Order.

An Iowa correspondent asks me to give my opinion as to whether or not any of the dumb animals have sympathy, and added that a minister at a funeral in their town had said that no animal except man was capable of sympathy. I agree with the minister, writes John Burroughs, in *Outing*. Sympathy, I think, is beyond the lower animals. When we sympathize with a person we put ourselves in his or her place; we feel sorry for him; we pity him; we would gladly alleviate his suffering—all of which implies more or less imagination and uninterested regard. Susceptibility to the sufferings of others is one of many higher attributes. When sympathy was born the race lifted above the purely animal plane. The next step is taking the sufferings of others upon yourself, which is the highest form of altruism. Pure selfishness rules the lower animals, and necessarily so. Sympathy is not necessary for the continuance of the species, but affection for their young is. Animals certainly have a feeling of comradeship for each other, and experience something like grief at separation, yet a dog or a cat or a horse or a cow will sniff at the body of its dead fellow with apparent unconcern. A cry of distress among the birds will bring every bird within hearing to the spot and cause them to be more or less agitated, but it is only because they are alarmed for their own safety; a common enemy may be about. In the herd and the flock a sick or wounded member is often fallen upon by its fellows and destroyed. If any animal ever experiences the emotion we call sympathy it is, of course, the dog. The dog has so long been the companion of man that he often shows in his nature a trace of the purely human.

WINE OF CARDUI

It has saved the lives of thousands of weak, sick women, and has rescued thousands of others from a melancholy lifetime of chronic invalidism. It will cure you, if you will only give it a chance. Try it.

Sold at every drug store in \$1.00 bottles.

WRITE US A LETTER

Put aside all timidity and write us freely and frankly, in strictest confidence, telling us all your symptoms and troubles. We will send free advice (in plain, sealed envelope), how to cure them. Address: Ladies' Advisory Dept., The Chattanooga Medicine Co., Chattanooga, Tenn.

GAVE UP SUPPORTERS

"I were a supporter for four years, to keep up my work, which had crowded everything down before it," writes Mrs. S. J. Plummer, of Manchester, N. H. "My children had me in misery, and could keep me. I suffered under two bottles of Cardui's. I was in my support. Now I am taking my fifth bottle, and have the feeling as formerly, and can do every thing I wish to do. I strongly recommend Cardui to every lady."

Often The Kidneys Are

Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood. It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that many of the most important diseases have their beginning in the disorder of the most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists, fifty-cent and one-dollar sizes, and is sold in bottles. You may have a sample bottle of Swamp-Root by mail free, also a pamphlet explaining how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and send address, Binghamton, N. Y., on every bottle.

MESSAGES PRESIDENTS

Valuable Book First Issued By Congress.

Mr. D. D. Dutton, representative of the Washington Post, is in the city in the interest of the valuable documents issued by the government, "Messages and Papers of the Presidents." This is the third distribution of the work, now in 11 volumes. The first 10 volumes were circulated by the government and the 11th consisted of only 6,000 copies. This is the second edition issued since it passed into private hands. There is no other publication on the market that gives the same historical information, or gives it in so good a form and with such attention to accuracy and reliability. It contains every message of every President from Washington to Roosevelt. Mr. Dutton will remain long enough to make a canvass of the city and county, and we can heartily commend his work to all who need such documents in their libraries. It is well worth the price charged for it.

Negro Burned.

Sulphur Springs, Texas, August 11.—Tom Williams, a negro charged with attempting to criminally assault a young white girl early this morning, was burned at the stake in the court house square to-day. An armed posse of horsemen captured the negro. He was burned before an immense crowd of excited citizens.

Grave Trouble Foreseen.

It needs but little foresight to tell, that when your stomach and liver are badly affected, grave trouble is ahead unless you take the proper medicine for your disease, as Mrs. John A. Young of Clay, N. Y., did. She says: "I had neurasthenia of the liver and stomach, my heart was weakened, and I could not eat. I was very bad for a long time, but in Electric Bitters, I found just what I needed, for they quickly relieved and cured me." Best medicine for weak women. Sold under guarantee by R. C. Hardwick, druggist, at 50c a bottle.

Fined \$5.00.

George Dabney, a negro boy about 14 years of age, was carried before Judge Knight yesterday on a charge of shooting within the city limits. An officer had caught him in the act and Judge Knight assessed a fine of \$5 and costs against him.

Poisons in Food.

FOR MRS. DUKE.

County Chapter D. A. R. Instructs for Gen. Morgan's Sister.

The following resolutions were adopted by the Christian County Chapter U. D. C., at their regular meeting Saturday.

"That this chapter instruct for Mrs. Basil W. Duke, our state president and first vice president of the national organization, for national president, and that we place our vote at her disposal."

The national convention meets in San Francisco the first week in October. Mrs. Duke is not eligible for re-election for state president. She is a worthy sister of our Peerless John H. Morgan and a woman fitted in every respect for the high position of president of the United Daughters of the Confederacy. Let Kentucky Daughters go to San Francisco with a united vote and purpose to elect her.

The Breeding Stock.

An idea prevails in the minds of some people that to breed good birds it is simply necessary to match together high-class specimens of each sex, and that the result of such a union should be offsprings of the orthodox type and quality. While good birds cannot be expected from bad ones, yet youngsters of the highest merit may be, and are produced from the mating together of imperfect specimens. A cock possessing certain properties in excess, matched to a hen deficient in the cock bird's excellencies, but possessing other points in which the cock bird is deficient has been known to produce the greatest specimens. The best breeders are not known in the show room, and the best show birds mated would throw the weakest specimens. It is the blending together of the good and bad that makes the strain of successful breeding.—American Fancier.

Freak Records.

Those who fail to gain distinction through other means, seem to seek oddity of performance, and every little while there appears a challenge from some "champion egg eater," or other freak. The forty-quail-in-forty-days performance has been outdone by a man who recently ate a whole goose each day for thirty days, the food weighing from six to eleven pounds. Other records in this line are sixty soft-boiled eggs daily in six days, six quarts of beans in forty minutes, smoking fifty cigars in eleven hours without once taking a drink.

A Paris couple recently waltzed without cessation for six and three-quarter hours, while an English actor danced all the way from London to Norwich.—American Fancier.

CARES LITTLE FOR ALIENS.

Except for Remote Days England Has Paid No Attention to Its Foreigners.

England, except for the remote days when King John found it profitable to pull out the teeth of wealthy Jews, has troubled herself little about the alien. She did, however, get tremendously excited at the time of James I. of England over the question whether the enterprising spirits he brought with him from Scotland should be admitted to the privileges of English citizenship. The matter was the subject of solemn trial, and a sort of compromise was evolved. All those born before the union of the crowns were held to be aliens, and all those born afterward were to be brothers and citizens. It was also decided that a child born abroad whose father or grandfather on the father's side was a British subject might claim similar privilege. He could not, however, successfully claim it if his father at the time of his birth was a traitor or a felon or engaged in war against his country. In the 1745 rebellion several Jacobites found this provision useful, for, being regarded as aliens, they found themselves treated honorably as prisoners of war.

COL. WALTER KELLY

As a Story-Teller Pleases Bro. Brewer.

Walter Kelly, general manager of the Giant Insurance Co., of Hopkinton, is exceeding fond of telling of a dog and badger fight recently witnessed by his son in Texas. Col. Kelly tells it in a very startling and graphic manner. In fact, he holds his audience, let them be few or many, spellbound and breathless until the sudden turn in the drama that is played, according to Mr. Kelly, in the most tragic manner. The story is most traveling miles to hear. It is useless for anyone to try to tell it, as he is the only one that can give the proper embellishment and bring out all the good points, especially where his son climbs up in the baggy to be in a safe position from the dog and badger, but as his son wrote him he got there to see the fight. Have no hesitancy in calling at Mr. Kelly's office over the First National Bank and have him tell the story. He never tires repeating it.—Fairview Review.

Feather Pulling.

The chief cause of hens pulling feathers is a lack of animal food. Salty meat rind hung up in poultry houses for the hens to pick at will very often check the habit of feather pulling. Fresh green bone fed regularly will be superior to any substitute offered.—Inland Farmer.

There is a whole lot of bombast in that paragraph. When a man has hens that are plucking feathers, he has also one well littered scratching shed. A busy hen, nor a busy man or woman is never doing anything. It is the idle ones that do it. When a man confides hens, denies them exercise and natural food, they ought to pluck feathers, and if they could and would, pluck all the hair off his pate. The fresh green bone is good for hens, no matter whether they are or are not plucking feathers, but the salty meat rind—well, that is a pretty good suggestion when made by a chronic chicken paper scribbler in an agricultural paper. It will do no good, but will do very much less harm than lots they write. Have a scratching shed, litter it deep, feed all grain in it, supply your hens with forage and some animal food when all that is done right you will not have a hen that will pluck feathers from her neighbor.—Southern Poultry Journal.

Hailstones and Eggs.

There is some strange relation between hailstorms and poultry, or between hailstones and eggs, that fascinates mankind. The hailstone may be dodged, the egg should be dodged, but the comparison between hailstones and eggs never can be dodged. It is impossible to get away from it. Whenever there is a hailstorm, when tender plants are cut to death and window glass is shivered, the hailstones are always the size of hens' eggs. Nobody ever heard of a hailstone the size of baseballs, walnuts or potatoes, or the size of macadam rock, golf balls or potatoes, or the fist, but ever and always the size of eggs. Yet eggs vary in size.

No chicken farmer would think of pointing to a cackling hen and saying: "She lays eggs as big as hailstones."

There really should be no comparison between hailstones and eggs. A shower of hailstones may be destructive, but a shower of eggs is apt to be a work of ill nature. A shower of hailstones may be destructive, but a shower of eggs is positively insanity. The longer a hailstone stays on earth the more inconspicuous it becomes, while the longer an egg stays on earth the more convinced we are that it is here.—The Washington Star.

The Nest Egg.

Most hens will take offense and seek a new nesting place unless the nest egg is left untouched. In winter this is liable to freeze and break. Not only soiling the nest but inducing the egg-eating habit. China eggs have one serious objection—they are so cold in winter that it must be positively uncomfortable to the hen to be obliged to sit upon one. Just think of the inconspicuous of the thing! We feed the hen warm food and give her warm drink to induce laying and then reverse the treatment by chilling her in this way. Our grandmothers used the nest-egg gourd for this purpose, and besides the merits of cheapness it is practically unbreakable with ordinary usage and is never uncomfortably cold.—Epitomist.

MAJ. FONTAINE A DEAD SHOT

Killed Sixty Men in One Hour—Was a Good Soldier.

WAS IN MANY FIGHTS.

Maj. Lamar Fontaine, Unique Character of the South, a Deadly Marksman.

Louisville, Ky., Aug. 12.—One of the unique and picturesque characters who attended the confederate reunion here was Maj. Lamar Fontaine, a survivor of the immortal 600 who were under the fire forty-one days at Morris Island camp, and who for forty-one days existed on meat and pickles.

Of the 600 prisoners only 218 survived the storm of shot and shell hurled from confederate batteries, the federals having placed the prisoners in a hovel between the contending armies. Maj. Fontaine was the only one to make his escape and accomplished it by swimming seven miles in forty-nine hours.

He bears a letter from General Lee, setting forth that on one occasion he killed sixty men in sixty minutes his prowess as a marksman having excelled on the field of battle or on the skirmish line. He was wounded sixty-seven times, and has scarcely a bone in his body that does not bear the mark of a bullet.

He is 76 years old and rarely misses a reunion.

Took Part 184 Fights.

Lamar Fontaine took part in twenty-seven pitched battles, fifty-seven heavy skirmishes, and 100 individual skirmishes, in which he left from one to five men killed or wounded behind him, and individual record unequaled perhaps in the annals of civilized warfare.

He was several times captured by the federals and was two months in the dungeon of Fort Delaware in solitary confinement. He was sent from that prison with 600 comrades, to Charleston Harbor, where the entire 600 prisoners were placed under fire of the confederate batteries that surround Charleston. These prisoners were subsequently removed to Fort Pulaski where they were fed for forty days on corn meal and pickles. The ill and wounded were taken to Beaufort Hilton Head.

Maj. Fontaine is the possessor of a curiosity in the shape of a carte blanche on the treasury of the confederate states which illustrates the confidence that was reposed in him. The carte blanche reads as follows: "The confederate states treasurer will honor any draft presented to him signed by Lamar Fontaine."

This document is properly executed and bears the seal of the Confederate states. He also has a certificate from Gen. Robt. E. Lee, Gen. Stonewall Jackson and Gen. J. E. B. Stewart testifying to his marksmanship in the field of battle and on the skirmish line.

WONDERFUL CURE OF SORE HANDS

By Cuticura After the Most Awful Suffering Ever Experienced

EIGHT DOCTORS

And Many Remedies Failed to do a Cent's Worth of Good

"I was troubled with sore hands, so sore that when I would put them in water the pain would nearly set me crazy, the skin would peel off and the flesh would get hard and break. There would be blood flowing from at least fifty places on each hand. Wounds could never tell the suffering I endured for three years. I tried everything, but could get no relief. I tried at least eight different doctors, but none did me any good, as my hands were so bad when I got through doctoring as when I began. I also tried many remedies, but none of them ever did me one cent's worth of good. I was discouraged and heart-sore. I would feel so bad mornings, to think I had to go to work and stand the pain for ten hours, I often felt like giving up my position. Before I started to work I would have to wrap every finger up separately, so as to try and keep them soft, and then wear gloves over the rage keep the grease from getting on my work. At night I would have to wear gloves; in fact, I had to wear gloves all the time. But thanks to Cuticura, that is all over now."

CURED FOR 50c.

"After doctoring for three years, and spending much money, a 50c. box of Cuticura Ointment ended all my sufferings. It's been two years since I used any, and I don't know what sore hands are now, and never lost a day's work while using Cuticura Ointment."

State College of Kentucky, Lexington, Ky.

The Agricultural and Mechanical (State College) of Kentucky offers the following courses of study, viz: Agricultural, Horticultural, Chemical, Biological, Mathematical, Physical, Normal School, Classical, Mechanical Engineering, Electrical Engineering, Civil Engineering, and Mining Engineering, each of which extends over four years and leads to a degree. Post graduate studies are also provided, leading to a master's degree. Each course of study is organized under a separate faculty. The general faculty number nearly fifty professors and instructors.

County appointees receive free tuition, room rent in the dormitories, fuel and light, and if they remain ten months, traveling expenses.

The laboratories and museums are large, well equipped, comprehensive and modern.

The Legislature appropriated \$60,000 for a college home for young women and \$30,000 for drill hall and gymnasium for men. Both buildings are completed and in use. Military tactics and science are fully provided for as required by Congress.

Graduates from the several courses of study readily find excellent positions and liberal remuneration. The demand is largely in excess of the ability of the College to supply.

Specialists with the necessary number of assistants have charge of each department of natural science. Summer schools are provided for pedagogy, engineering, instruction in science and in arts.

The State College of Kentucky, though bearing the title of "college," is the only institution in the Commonwealth doing, in any proper sense, university work.

The completion of the College home for young women provides facilities for good board and lodging. It is equipped with all modern appliances for good board and room for physical culture. It is heated by steam and lighted by electricity.

An opportunity is thus afforded to young women of obtaining a thorough education in classics, modern language, literature, science, mathematics, logic, metaphysics, history, and political economy. No other institution in the State offers advantages for education of women at all comparable to those offered by the State College of Kentucky.

How Wars Are Terminated and the Peace Envoys

Treaty and Conquest and Cession of Hostilities—Brief Glance
at the Russian and the Japanese Peace Plenipotentiaries

BARON ROSEN.

His reading world is weary of war; the fighting world must by now be ready for rest. Let us look to termination of belligerence; cease of naval maneuver and military campaign. To quote from an authority: "War may terminate in three ways; by treaty, by cessation of hostilities, by conquest. The treaty is the usual method and is the best; for the parties of the war can do, and should thus settle by a careful and formal document the various issues that caused the war, and provide for peaceful and harmonious relations in the future. In cases of war indemnity and cessation of territory, a treaty is well-nigh indispensable."

In war terminated by conquest, the defeated state succeeds to the rights and also the obligations of the victors. Wars terminated by mere cessation of hostilities, are very rare. The war between Sweden and Poland in 1716 and the one between France and Spain in 1720, ended when fighting ceased without formal treaty. In 1825 war between Spain and her American colonies came to a close, but it was not until 15 years later that Venezuela was recognized as an independent state. When the hostilities between France and Mexico, beginning in 1812 and lasting five years ended, it was years (not until 1881) before diplomatic relations were entered into.

This termination of war by mere cessation of hostilities, makes it difficult for neutral nations to feel justified in carrying on trade, that being a rather

BARON ROSEN.

uncertain peace which dates from the "last warlike act." Other "last ones" loomed on the horizon. Neutral nations, though not so vitally concerned as the belligerents, supply stations or ports of shelter. A neutral may, however, trade with either belligerent or both, in all articles except those designated contraband of war. "Wherever it is of the utmost importance also to neutral nations that was concluded with formal declaration of peace.

In the preparation of a treaty, negotiations are usually carried on by a regular agent or by a special commissioner or plenipotentiary. The treaties are now at hand, and ratification is sometimes withheld. Treaty for settlement of war is a very delicate matter, and the sovereign state or the

BARON KOMURO.

ruler may reserve the right of acceptance or proposed terms.

As is well known, presently plenipotentiaries from the two great nations now at war, are to meet in this country to discuss peace terms. M. Muraviev, Russian ambassador to Italy, is to head the delegation from his nation; associated with him is Baron Rosen, the new Russian ambassador to the United States. Japan will have Takahira, Japanese minister to the United States, to look after her interests; and Baron Komuro, formerly representing the country in Russia, is to take part in the negotiations.

M. Muraviev is a distinguished diplomat and public man. Several years ago he served as a secretary of state at St. Petersburg, and 11 years ago was appointed president of the national assembly of the senate, the highest court in Russia. In 1895 he became minister of justice, and in that office reformed the

judicial systems of Siberia and other sections of the great empire. He was instrumental in the building of the Trans-Siberian railroad, and greatly interested in development of the resources of Siberia. He now leaves his post as ambassador to Italy to take part in the peace negotiations.

Baron Rosen, Romanovitch Rosen, who succeeds Count Cassini at Washington, but recently arrived in this country to assume his duties. Baron Rosen was Russian consul-general in New York several years, 1824-25, and has wide acquaintance in America. He is familiar also with Japan and the Japanese; at one time served as charge d'affaires at Tokio, and was minister to Japan from 1903 to the breaking out of the war. While representative of the czar at the milken court, he sent reports to his government of the active preparations for war progressing in Japan against Russia; but no heed was paid to his warning. He is a very distinguished diplomat, an expert on eastern affairs. Baron Rosen is a high dignitary—a state councillor, a chamberlain of the imperial court, and a knight of three orders—St. Vladimir, St. Ann and St. Stanislaus.

M. MURAVIEFF.

Baron Komuro is a man of high standing in his own land and having leaning toward Russia, and over in Russia Baron Rosen was looked upon with pro-Japanese feelings. (The two may be able to add to ready and amicable adjustment of matters at the peace conference.) Baron Komuro was Japanese minister to the United States prior to war. He served in the Japanese law school, and it was in this country he received his early training for official life. He has made a name for himself in his own land as having leaning toward Russia, and over in Russia Baron Rosen was looked upon with pro-Japanese feelings. (The two may be able to add to ready and amicable adjustment of matters at the peace conference.)

MINISTER TAKAHIRA.

previous to his coming to Washington was vice minister of foreign affairs. Baron Takahira has been minister to this country since 1900, and it was in the United States he began his diplomatic career, back in 1876, serving as attaché in Washington. To-day he is looked upon as one of Japan's most able diplomats, a man of tact, dignity, and experience. It is said that the services of Minister Takahira just at this time are particularly valuable, because of his accurate knowledge of the Russian people.

He is a man of middle age, a man of ability and culture. He reads English, German, French and Chinese. The minister's manners are polished, his attitude alert. He wears the samurai's sword, the symbol of the Samurai or "Old Japan," those feudal lords whose two swords bespoke their aristocracy. This descendant of the Samurai belongs in modern progress. In an interview granted a representative of the World's Work, he declares: "The Japanese believe that the pen is greater than the sword. Education and literature were the keynotes in the awakening of Japan." And in answer to the question as to whether the great service rendered Japan by the United States represented by Commodore Perry, that opened the empire of Japan. No other nation but an Anglo-Saxon nation could have done it so well—so auspiciously—for there is no civilization like the Anglo-Saxon civilization.

Takahira has served his country in the following posts: That of charge d'affaires of the legation at Washington, chief of the political section of the Japanese foreign office, consul general at New York, resident minister to Denmark and to Holland, minister to Italy, Austria and to Switzerland, vice minister for foreign affairs, minister to the United States.

KATHERINE POPE.

WOMAN NEEDS

For the relief and cure of the many delicate, intricate and obstinate ailments peculiar to her sex, a remedy carefully devised and adapted to her delicate organization by an experienced and skilled physician. Such a remedy is Dr. Pierce's Favorite Prescription.

The treatment of many thousands of these chronic weaknesses and distressing ailments peculiar to females, at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., has afforded a vast experience in nicely adapting and thoroughly testing remedies for the cure of woman's peculiar maladies.

Dr. Pierce's Favorite Prescription is the outgrowth, or result, of this great and valuable experience. Thousands of testimonials received from patients and from physicians who have tested it in the more aggravated and obstinate cases which had baffled their skill, prove it to be a superior remedy for the relief and cure of suffering women. It is not recommended as a "cure-all," but as a most perfect specific for woman's peculiar ailments.

As a powerful invigorating tonic, it imparts strength to the whole system and to the womb and its appendages in particular. For over-worked, "worn-out," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, it affords the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nerve, "Favorite Prescription" is unequalled and is invaluable in allaying and subduing the most excitable nervous system, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea, or St. Vitus's dance, and other distressing nervous symptoms commonly attending upon functional and organic diseases of the womb. It induces refreshing sleep and relieves mental anxiety and despondency.

to her son in 1888 for \$1,500. Mr. Hoefler died in 1897 and as so long a time had elapsed since last payment, in 1889, it was thought that the policy had no value.

The family were much surprised to learn that the insurance had been extended for 8 years and 121 days, and to receive \$1,500.

JAPS MUST KNOW NO EVIL

Doctrine That Is Taught the Children by Object Lessons at an Early Age.

The Japanese adage that one must speak no evil, see no evil, hear no evil is taught the children from their infancy. Over the temple door are three monkey images in different attitudes. One has its hands over its mouth, another over its eyes and still another over its ears. This object lesson in ignoring evil is explained to the youngsters during his wide-eyed, question-asking age and he is reminded of the monkeys so often that his curiosity is soon in subjection. This early training no doubt contributes to his repose of manner and adds to his passiveness of temperament. It is considered impolite to manifest surprise no matter what one may see. This principle allows the poor family to take its bath in sight of the street without scandalizing the neighborhood. If no one is shocked there need be no one embarrassed. This comforting logic acts in lieu of window blinds.

It is amusing to observe children at the temple. The other day I noticed a wee girl climbing up the long steps. She held a copper coin clutched tightly in one chubby fist. Approaching close to the railing before the cash box she balanced herself carefully and tossed her money between the slats. Then she grasped the rope which disturbs the drum overhead and aroused the echoes with all her Lilliputian strength. She seemed impressed with the necessity of making plenty of noise in order to attract the attention of the god. When satisfied in this respect, she composed herself for a moment, made a brief prayer, then made off in great haste. I was anxious to know what sort of supplication she could have made, so my companion, having knowledge of the language, agreed to question her. What sort of petition do you suppose she offered to the god? She wanted her mother cured of headache! Children are not allowed to pray for good things to eat, nor to ask for anything to promote pleasure. The deities are only appealed to for relief from want, distress or trouble.

SCARCITY OF STURGEON.

There Has Been a Change in the Potomac River in Last Few Years.

Sturgeon, which 25 years ago were as common in the Potomac and other tributaries of Chesapeake bay as perch are now, have become extremely scarce, due to their being caught in season and out, little and big, until now to catch a sturgeon is a rarity, and the fortunate fisherman is looked upon with envy by his less fortunate comrades. So great has been the increase in the demand for the sturgeon that a large fish worth \$50 to \$70. Recently an old fisherman, who has spent more than half a century taking fish from the waters of the Potomac, stated in the presence of a Washington Star reporter that within the past 25 years he has seen sturgeons caught in such quantities in the river that there was absolutely no sale for them and they were piled upon the shore like cordwood to be taken away by the farmers and used as fertilizer.

A catch of this kind now would mean a small fortune to the fisherman who made it, but that day has long since past. The spawn of the sturgeon is now very valuable, and is used in the making of caviare. It sells for a dollar or more a pound, and as soon as a sturgeon is caught the spawn is taken from the fish before it is sent to the market. Twenty years ago, on the Alexandria fish wharf, and here, also, sturgeon spawn was given away for the asking, and was used by the boys as fish bait. So far this season the catch of sturgeon has been unusually small in the Potomac, and the same condition prevails on the James and other rivers in Virginia, once rich in the big fish.

A Sure Sign.

At this time of year the usual crop of stories about people finding turtles with signs of great antiquity on them—say the figures 1798—appear. The figures simply show that the boy and his pocket-knife are busy.

GRACEY NEWS.

Gathered By Our Friend, "Stragler."

Gracey, Ky., Aug. 14.—Miss Mabel Dillman, of Hopkinsville, will teach the school at this place the coming session. Miss Dillman is a daughter of Mr. W. B. Dillman, carrier on rural route No. 4, and comes to the school here highly recommended as a teacher.

Mr. and Mrs. Ellis Cox and daughter, Miss Winifred, of Cairo, Ill., are visiting relatives and friends in this neighborhood. Mr. Cox is an old Gracey boy who left here about 19 years ago, going to Cairo, where he is now assistant cashier of one of the leading banks of that city.

The prospects are very flattering for a splendid crop of both corn and tobacco in this neighborhood. It has not rained as much here as it has in other parts of the county, but the crops have not suffered a great deal and will be very fine.

Mr. John Thurmond received a telephone message yesterday stating that a negro man who had been employed by him as a day laborer for some time, was killed by another negro at Cereulan Saturday night. The particulars of the affair are not known. The colored people had one of their "famous" festivals at Cereulan Saturday night and it is supposed that, as is usually the case, the affair ended with a "rough house." The negro who was killed home was at Cereulan.

Mrs. B. W. Cowherd, daughter and little son, have returned from a visit of several weeks to relatives in Caldwell county.

Mrs. John Thurmond and daughter, Miss Laura, have returned from Clarksville, where they spent several days visiting friends.

Mr. and Mrs. Frank Torian, of Hopkinsville, spent Sunday with Mr. and Mrs. Frank Wilson.

Rev. I. N. Strother filled his regular appointment at West Union yesterday, preaching to a large congregation. A protracted meeting will begin at the church in September to continue about two weeks.

Mr. F. O. Wilson, the popular salesman for H. C. McGeehe, is taking his vacation this week.

"STRAGLER."

Only a Mask.

Many are not being benefited by the summer vacation as they should be. Now, notwithstanding such outdoor life, they are little if any stronger than they were. The tan on their faces is darker and makes them look healthier, but it is only a mask. They are still nervous, easily tired, upset by trifles, and they do not eat or sleep well. What they need is what tones the nerves, perfects digestion, creates appetite, and makes sleep refreshing, and that is Hood's Sarsaparilla. Pupils and teachers generally will find the chief purpose of the vacation best subserved by this great medicine which we know, "builds up the whole system."

CAUGHT IN UTAH.

Former Guthrie Telephone Manager Admits Infidelity.

Louisville, Ky., Aug. 13.—Percy J. Luster, wanted in Guthrie, Ky., for the murder of his wife, was captured in Ogden, Utah. He admits his identity, but denies the murder. Mrs. Luster, of a prominent Tennessee family, was found dead in her home when her husband's business associates went there to see why he had not come to the telephone office, of which he was manager. Evidence of murder were numerous. Luster's disappearance has been a mystery.

Buggies!

5 MORE CARS! 5

Having had the biggest sale this year ever made by any firm in Hopkinsville, we were encouraged to order five cars more, later than we usually buy, for the months of August and September.

On this sale we will, on account of the low price we obtained, sell Buggies, Surreys and Phaeton at \$5.00 to \$20.00 each less than they have ever been sold in the city. Purchasers residing in Todd, Logan, Hopkins, Trigg and Caldwell counties, Ky., and Montgomery county, Tenn., will have their railroad fare both ways paid back to them, upon presentation of this coupon. This sale will continue until October 1st, 1905.
